

ASIA TYPE DUCTED AIR CONDITIONER

An efficient solution for more comfortable environments

Grande Asia Type Air Conditioners 60HZ R410A Top Discharge Outdoor

A broad line of user-friendly, earth-friendly units

Indoor Unit

- Auto restart
- Low noise
- Washable air filter
- High velocity air flow
- Drain pump(optional)

Remote Control

- Wired controller
- Big LCD display
- 24-Hour Timer
- 5 operation modes
- fan speed selection

Condensing Unit

- Universal design
- High efficiency compressor
- Self diagnosis
- 3-minute protection
- Valve protection

The YORK® line of Mid Static Ducted Air Conditioning units includes a wide range of sizes to meet most any customer's needs. Each model is designed to provide comfort and efficiency in an easy-to-operate unit and flexible installation makes them an easy fit for a variety of applications. Models meet the highest energy efficiency ratings, so less energy is consumed without sacrificing comfort and performance. Both the condensing units and indoor units are engineered for quiet operation. And comfort control settings are easily changed with the touch of a button on the remote control.

We create environments that help achieve a higher level of comfort.

No one knows building environments better than Johnson Controls. For more than 125 years, we've been in the business of building efficiency, delivering healthier environments, operational savings and sustainable solutions for our partners all over the world. In fact, we serve over one million customers and help the world reduce its energy consumption, saving customers over \$7.5 billion in energy costs.

FEATURES AND BENEFITS

24-Hour Timer

Allows programmed start times up to 24 hours in advance for flexible and more convenient operation.

Multi-speed Fan

Multi-speed fan helps satisfy various airflow requirements.

R410-A

Environmentally-friendly refrigerant cools and heats more efficiently without destroying the ozone layer.

Self Diagnosis

Clearly displayed failure codes allow for quicker troubleshooting and easier maintenance.

Compact Design

Smaller dimensions for easy installation, transportation, and reduced cost.

3-Minute Protection

A 3-minute delay before the compressor will restart helps avoid compressor damage and work time.

Auto Restart

Unit is automatically returned to previous operating conditions after a power outage, for simplified operation.

Washable Filter

Washable filter allows for convenient service and maintenance.

Inner Groove Copper Tubes

Inner groove copper tubing allows more refrigerant to pass through, improving heat exchange by 30 to 50% when compared to traditional copper tubing, and lowering power consumption while keeping output capacity at the same level.

About Johnson Controls

Johnson Controls is a leading provider of equipment, controls and services for heating, ventilating, air-conditioning, refrigeration and security systems for buildings. Operating from 500 branch offices in 150 countries, we create building environments that help people achieve more by delivering products, services and solutions that increase energy efficiency and lower operating costs. We are involved in more than 500 renewable energy projects including solar, wind and geothermal technologies. Our solutions have reduced carbon dioxide emissions by 13.6 million metric tons and generated savings of \$7.5 billion since 2000. Many of the world's largest companies rely on us to manage 1.5 billion square feet of their commercial real estate.
